

## **Creative Processing**

Standard Operating Procedure for theta clearing is the backbone of processing in Scientology. It is easily followed but the auditor should have an excellent command of all types of processing in order to use it more successfully.

SOP is most easily done and most successfully by an auditor who is a theta clear. Auditors, who are not theta clear, seldom understand it, and a low-toned uncleared auditor who cannot himself leave his body very often acts to pin a preclear inside his body. It is noteworthy that many auditors have been unable to obtain successes with theta clearing before they themselves have been cleared, but immediately after the auditor was cleared, he was successful with each successive case without exception. The fear of some thetans from various causes of leaving the body causes the auditor—who is the thetan—to make other thetans stay in bodies, and it is actually quite dangerous to be audited by auditors who are not theta clears. The process is not dangerous; uncleared auditors are.
