IMPORTANT NOTE SECT III

III Completion

It does not matter whether or not you ran Inci 1 and 2 on self.

THE END PHENOMENA OF III IS GETTING RID OF ALL BODY THETANS. This does not necessarily include self.

If you overrun III it will be by trying to get rid of more body thetans than there were or by then, having gotten rid of the others, starting in on self.

So III is *complete* for purposes of overrun as above.

If you have not done Incident 1 and 2 on self when above is achieved, attest completion and then do 1 and 2 on self.
